

Fabricator (metal)

Weber Industries is a bespoke fabrication and design consultancy studio based in south-east London. We work with architects, artists, designers and private clients to realise a diverse range of projects: from unique objects to batch-produced products, architectural features and public artworks. We are looking for an accomplished Fabricator with experience in metal to join our growing team.

The role:

- Working as part of our team to deliver a wide range of bespoke projects, from design and costing to fabrication and installation.
- Working confidently and competently with metal fabrication equipment (portable and stationary) in the studio and on-site.
- Bringing specialist knowledge of metal fabrication to our team, as well as experience working with a range of other materials and processes.
- Upholding high standards of craft and workmanship, demonstrating awareness of quality management across varying projects and contexts from structural fabrication to fine making.
- Working efficiently and with initiative in a creative, collaborative environment.
- Bringing a positive, hands-on approach to problem-solve in challenging situations.
- Maintaining high standards of health and safety.
- Reporting to the Director, Office Manager and project lead.

Salary:

- £24,768.00 to £33,024.00 (pro-rated), based on skill-level and experience.

Job type:

- PAYE, long-term.
- Flexible working (4-5 days per week).

Essential skills/experience:

- Minimum 3 years of relevant professional experience.
- Fine metalworking and welding skills (MMA, MIG, TIG).
- Knowledge of metal finishes and patinas.
- Experience of working from fabrication drawings.
- Awareness of good health and safety practice.
- Good communication skills.

Weber Industries Ltd
Registered in England & Wales
Company No. 877014

Desirable skills/experience:

- Experience of coded welding.
- Experience with CAD design and 3D modelling (VectorWorks, SolidWorks or Rhino).
- Experience with CNC router.
- Electrical and mechanical skills, e.g. 240v and low voltage wiring, lighting, kinetics.
- Woodworking skills; cabinet-making, general carpentry and joinery skills.
- Engineering machining, e.g. mill and lathe work.
- Experience with casting and mouldmaking.
- Decorating and finishing skills.
- CSCS validation.
- Health and safety training.
- Valid UK driving license.

What we offer:

- A respected role within our small, committed team where your input will be valued.
- The opportunity to work on a diverse range of client and community projects.
- The chance to refine your craft and learn new skills.
- A competitive salary based on skill-level and experience.
- Free lunch and access to studio facilities for personal projects.

Next steps:

- Submit your portfolio and CV (with two references) to anna@weberindustries.com.
- Applicants will be selected subject to a 1-day skills trial (to be arranged on a flexible basis, unpaid).
